

Candidates will be competitively selected through a national search for this two-year clinical fellowship program. Those selected will participate in the HIV Clinical Leadership program with full fellowship salary and benefits.

## Application Process

Up to 4 fellows may be selected for each cohort.

We are seeking passionate, mission-driven physicians who:

- Are committed to working with underserved and marginalized communities
- Aspire to take on leadership roles in HIV primary and specialty care
- Seek to advance health equity through clinical practice, education, and advocacy

The HIV Clinical Leadership Program is seeking applicants who are board eligible or board certified in:

- Family Medicine
- Internal Medicine or
- Medicine-Pediatrics

Applicants must have completed an accredited United States medical residency program. The fellowship does not support any international visas.
